California Water Plan Update 2013 Roll Out of Technical Information

Thursday January 8th
9:30am-12:00pm

Register Here: <https://attendee.gotowebinar.com/register/5841747422861405442>
Please register prior to the meeting start time to ensure proper setup. After registering, you will receive a confirmation email containing information about joining the webinar.

Purpose

This webinar will provide an overview of the recently released California Water Plan Update 2013 content with a focus on the technical information that may be useful to planners, engineers and scientists. Presenters will cover the main technical content developed for Update 2013, including water balances for recent years, scenarios of future water management conditions, groundwater content, climate change, and sustainability indicators. Ways for accessing the technical content and documentation will be provided. THIS WEBINAR HAS BEEN UPLOADED TO YOUTUBE - http://youtu.be/aGqBg-F94_4

Agenda

Time	Topic	Presenter
9:30	Introduction	Ben Bray, CWEMF Rich Juricich, DWR
15 minutes per speaker	California Water Plan Update 2013 - Overview	Paul Massera, DWR
	Water Portfolios of Current Water Balances 2001-2010	Jennifer Kofoid, DWR
	Analysis of Statewide and Regional Future Water Demands through Scenarios	Mohammad Rayej, DWR
	Central Valley Vulnerability Assessment	David Groves, RAND
	Groundwater Findings and Recommendations	Abdul Khan, DWR
	Climate Change and the Water Energy Nexus	Andrew Schwarz, DWR
	Indicators for Evaluating and Reporting Water Sustainability	Fraser Shilling, University of California, Davis
11:45	Brief Questions and Answers	All
12:00	Adjourn
